Order Form

Photograph: Cheshire Portrait Photography

Artist Sarah Capper from Doodleicious Art describes her work as 'exquisitely detailed doodles' – and they really are. Each of her illustrations is layered with intricate detail, natural forms and colour, creating floral incarnations of the familiar.

**'I love to capture as much detail as possible in my illustration work. Recreating something that looks similar, yet with a floral twist.'**

The details in each piece are incredible.

Sarah draws all of her work by hand and often wishes she could do things a little quicker by using a tablet, but prefers putting pen to paper. 'I spend a bit of time studying what I'm about to draw and sketch out quickly with a pencil, before applying the ink and colour.'

Sarah works from home in Cheshire and takes inspiration from natural form and pattern, vintage fabrics, flora and fauna and the countryside around her.

Unless otherwise noted, all cards are 6 inches by 6 inches (150mm by 150mm), individually cello wrapped, if required, and with an envelope. At the point of order please state whether you would like the cards without cellos.
